THE AUTHENTIC DIFFERENCE

A passion for uncompromising performance and quality is the essence of the Authentic Difference, and it’s forged into every part and accessory we make today. As the official parts and accessories division of DaimlerChrysler Canada Inc., Mopar is original equipment. Which means every Authentic Dodge Accessory by Mopar in this catalogue is designed by a DaimlerChrysler Engineering Team – the people who know your Ram better than anyone else.

It’s a difference you’ll recognize in the higher standards and tighter tolerances required of original equipment accessories. You’ll see it in our materials, which provide a superior finish and an exact vehicle colour match, as well as in the integrated fit that comes from utilizing the same computer modelling technology that’s used to design your vehicle.

You’ll appreciate it in our stricter testing standards, from demanding salt bath corrosion tests and impact performance tests to harsh on- and off-road durability testing. And you’ll discover that all Authentic Dodge Accessories are designed so they will not adversely affect your vehicle’s original performance specifications, such as engine cooling and proper air bag deployment – a common problem with many aftermarket accessories.

And finally, you’ll value the Authentic Difference in our warranty coverage. When installed on a Dodge Ram that’s within the New Vehicle Limited Warranty period, Mopar Accessories are covered by the 3-Year/60,000-Kilometre New Vehicle Limited Warranty, or the 12-month/Unlimited Metrage Basic Limited Warranty, whichever is more favourable to you. And, these warranties are serviced by thousands of DaimlerChrysler Canada Inc. dealerships throughout the country. A promise aftermarket brands simply can’t make.

Whether you’re looking to enhance your Dodge Ram with premium protection, convenience, style or entertainment, choose the Authentic Difference. Just like our accessories, it’s a statement – and a standard of excellence – you’ll benefit from for years to come.
